Description

This cylinder head cover set includes all 5 cover pcs and applies to (and is not limited to) 125cc engines. Most commonly used for 125cc manual shift dirt bike engines. These parts are located on and around the cylinder head and when removed yields access to the rocker arms and allows for adjustments on the intake and exhaust valves etc. The diameter of the large circular piece (labeled "CDI" in the picture) is 82mm.
