### Description

Complete engine, commonly referred to as "Honda Clone Engine" 6.5HP (aka GX200 format) with EPA emissions certification. This is a Bashan brand 6.5 HP multi-purpose motor used for a full range of applications as one of the world's most popular types of gasoline engines. Shaft diameter of 0.79 inches (25/32).

Comes with separate 80A1196 carb, which needs to be installed into engine.

In powersports applications it is a direct replacement for the Baja (Baja Motorsports) 196cc mini bike as well as buggies, go karts and a seemingly endless range of custom machines.

In other applications this engine is used for everything from wood splitters to water pump, water pressurizers (pressure washers, sprayers etc.) and hundreds of other applications.
